

Webinar ESG Risk Management

9 March 2023 9:00 am – 12:45 pm

ABOUT THE PROGRAMME

Environmental, Social and Governance (ESG) risks have been the focus for financial institutions and capital market intermediaries in recent years as regulators continue to issue guidelines and requirements relating to ESG given the demand for sustainable products and services. This has resulted in the need to shift from compliance driven approaches to proactive risk mitigation strategies by integrating ESG considerations and risks into business plans, decision making processes, internal controls and risk frameworks.

Continuous risk management and reporting in a transparent manner is crucial to mitigate ESG risks that are detrimental to an institution's reputation and sustainability. Failure to manage the risks would lead to substantial financial consequences for institutions that provide financing or investment to those exposed to such risks.

This webinar will contextualize sustainability risks and how they would appear in an organization's daily operations through the perspectives of climate risks such as transition, physical and liability, and social risks such as operational health and safety, human and labor rights. Understanding reporting frameworks, its content, use cases as well as issues with existing reporting methodologies will also be examined. In addition, the webinar will discuss environment and social risks that may manifest and best practices towards mitigating and managing potential ESG risks.

WHO SHOULD ATTEND

- Risk Management Practitioners, Compliance & Legal Officers
- Sustainability & ESG Officers
- Investment Bankers, Financial Advisors & Analysts
- Individuals interested in ESG risk management

LEVEL

Intermediate

FEE

MIBA Member : **RM800.00** per participant

Non-MIBA Member : **RM950.00** per participant

*10% discount applies for group registration of 5 or more from the same organization

LEARNING OUTCOMES

- Define Environmental, Social and Governance (ESG) risks through an organization's daily operations
- Discuss opportunities for key sectors arising from ESG risks
- Analyze the sustainability reporting frameworks, content and issues with existing reporting
- Review the methods to manage ESG risks and best practices towards mitigating such risks

SPEAKER

Benjamin Ang
Manager, Climate & Sustainability,
Deloitte Business Advisory Sdn Bhd

Benjamin has over 5 years of experience in sustainability, delivering various solutions in-house and as an external service provider to various listed companies in Malaysia. He was also on the Judge Panel for various Malaysian Sustainability competitions such as IEM-UTM's

InvencMax 2.0 Competition and UiTM's Sustain The World Virtual Camp 2022 Technical Video Competition.

Benjamin has delivered to a listed oil and gas company a Climate Report that is aligned to the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD) that involved performing Scenario Analysis based on key reference scenarios, and strategic reviews for the company. He has also delivered a Net Zero Roadmap that outlines strategic actions and implementation plans for the company towards becoming Carbon Neutral by 2030 and Net Zero by 2050. In addition, he has worked with various public listed companies where he delivered Second Party Opinion Reports to assess various Green Bond projects covering Solar, Green Building, and Hydro projects. Among his other experiences, Benjamin has also delivered Green Bond Frameworks that align client green financing framework to best practice standards as defined within the International Capital Markets Association's Green Bond Principles, and ASEAN Capital Market Forum's Green Bond Standards.

Benjamin graduated with a Bachelor of Arts in International Business from Tamkang University and Master of Business Administration from Quantic School of Business and Technology. He has qualification and certification in Sustainability and Climate Risk Programme, Global Association of Risk Professionals (GARP) and Business Sustainability Management, University of Cambridge.
