ABOUT THE PROGRAMME

The requirements for IPOs continue to evolve, necessitating rigorous legal and financial due diligence to ensure compliance and support successful listings. Principal advisers, legal advisers and reporting accountants must understand the key considerations, risks, and documentation involved in IPO transactions to safeguard investors and facilitate an efficient listing process.

This programme is designed to guide participants in undertaking an effective and efficient legal and financial due diligence process for IPO applicants seeking to list on Bursa Malaysia. It provides an overview of the regulatory framework, including the Capital Markets and Services Act 2007 and relevant guidelines issued by the Securities Commission Malaysia and where applicable, requirements issued by Bursa Malaysia Securities Berhad, and highlights practical approaches to conducting meaningful due diligence and identifying red flags. The programme also covers legal due diligence, focusing on key documentation, the roles of advisers, and strategies to manage legal risks that may affect IPO applications. The financial due diligence session addresses business drivers, accounting policies, financial performance, and overall financial condition to support valuation and pricing considerations. Participants will be equipped to identify key legal and financial issues, address compliance requirements, and ensure IPO applications are prepared in line with regulatory expectations, contributing to a smooth and efficient IPO process.

LEARNING OUTCOMES

- Review the regulatory framework and due diligence requirements for IPO applications;
- Analyse the scope and documentation required of legal due diligence in IPO transactions;
- Assess the legal risks that affect IPO applications and its mitigation strategies;
- Analyse the IPO applicant's business and accounting practices and related financial reporting risks; and
- Evaluate the applicant's financial performance to support IPO valuation and pricing considerations
